PROFILE

Full-stack developer working across React, Node.js/Express and MongoDB, with additional experience in Java and MySQL. Built and shipped a support-ticketing module for a live salon management SaaS product during an industrial attachment at Ventrledge, covering the API, database and frontend end to end. Comfortable owning a feature from database schema through to a working UI, and picks up new stacks quickly.

TECHNICAL SKILLS

Frontend: React.js, JavaScript (ES6+), React Router, Axios, Vite, HTML5, CSS3, responsive UI design

Backend: Node.js, Express.js, Java, REST APIs, JWT & bcrypt authentication, CRUD services

Databases: MongoDB, Mongoose, MySQL, relational schema design, normalization

Tools: Git/GitHub, Postman, VS Code, Eclipse, Linux (daily driver)

EXPERIENCE

Software Development : Ventrledge Company Limited, Nairobi

April 2026 – Present

- Built full-stack features for Spark, a live salon-management SaaS platform, across the React frontend, Express/Node backend and MongoDB data layer.
- Designed and shipped a support-ticket system end to end: customers submit issues, staff triage and respond, and status is tracked through resolution.
- Implemented JWT-based authentication and bcrypt password hashing, and modelled ticket, reply and note data in MongoDB with Mongoose.
- Built the REST API layer connecting the frontend to backend services, using Axios for requests and React Router for navigation.
- Worked in Git/GitHub throughout, and debugged issues across the stack; frontend, API, and database.

Information Technology Specialist : Liffon Analytica Limited

Mar 2023 – Jan 2026

- Managed IT infrastructure and provided technical support across systems, networks and software applications.
- Handled troubleshooting for hardware, software and connectivity issues, keeping downtime low.
- Assisted with database management, system configuration and cybersecurity best practices.
- Supported system monitoring, backups and technical documentation.

SELECTED PROJECTS

Spark Support Ticket System | [React](#) · [Node.js](#) · [Express](#) · [MongoDB](#) · [JWT](#)

- Full-stack ticketing app built during the Ventrledge attachment. See Experience above for detail.
- Split cleanly into a React frontend and an Express/MongoDB backend, communicating over a REST API.

Student Results Management System | [Java Swing](#) · [MySQL](#) · [JDBC](#)

- Desktop academic management app with separate Admin, Lecturer, HoD and Student modules.
- Handles results, timetables and a complaints workflow, with role-based access control and JDBC-backed MySQL persistence.

EDUCATION

Kisii University, Kenya - BSc Applied Computer Science, Final Year

Coursework: Software Engineering, Database Systems, OOP, Web Development, Computer Security, Data Structures & Algorithms

Mbita High School, Kenya - KCSE, B+ (73 points)
